THE SUPPLY HOUSE

COMPANY PROFILE

PETROLEUM SERVICES & GENERAL SUPPLIES

RELIABLE SOURCING | RESPONSIVE SUPPLY | PROFESSIONAL SERVICE

ESTABLISHED 2022

01 | ABOUT THE COMPANY

THE SUPPLY HOUSE is an Egypt-based sourcing and supply company established in 2022. We support customers across the petroleum, oil & gas, and general industrial sectors by sourcing and supplying products in line with their operational and project requirements.

Our approach is built around understanding each request, identifying suitable supply options, coordinating procurement, and maintaining clear communication throughout the process.

OUR BUSINESS FOCUS

We aim to be a dependable supply partner for organizations that require responsive sourcing, clear coordination, and practical solutions across a broad range of product categories.

02 | SCOPE OF SUPPLY

We provide general and specialized sourcing support across a wide range of product categories, subject to technical specifications, availability, and project requirements.

Petroleum & Oilfield Supplies
Equipment, materials, and consumables for oilfield and energy-related operations.

Pipes, Fittings, Flanges & Valves
Pipeline components and flow-control products.

Mechanical Equipment & Spare Parts
Pumps, motors, mechanical components, and replacement parts.

Electrical & Instrumentation
Electrical materials, instruments, controls, and related accessories.

Safety Equipment & PPE
Personal protective equipment and workplace safety supplies.

Tools, Hardware & Industrial Consumables
Tools, maintenance materials, and day-to-day industrial requirements.

General Supplies & Special Procurement
A broad range of requested products sourced according to customer specifications.

03 | SERVICES & DELIVERY APPROACH

SOURCING & PROCUREMENT

Identifying suitable suppliers and sourcing options based on requested specifications, quantities, and commercial requirements.

SUPPLY COORDINATION

Coordinating order details, documentation, and delivery requirements with relevant suppliers and customers.

REQUEST & SPECIFICATION REVIEW

Reviewing product descriptions and technical requirements to help align quotations and supply proposals with each inquiry.

CUSTOMER COMMUNICATION

Providing clear updates on quotations, product availability, and expected lead times throughout the supply process.

OUR COMMITMENT

We seek to build long-term business relationships through transparency, responsive communication, careful coordination, and a customer-focused approach. Each inquiry is assessed according to its individual requirements.
